**RE: Reconnaissance Level Characterization Report (RLCR) and Pre-Demolition Survey Report (PDSR)
for Tent 15 (Barn Tent) – Concurrence and Approval**

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the RLCR/PDSR for Tent 15, also known as the Barn Tent; Revision 0 dated April 14, 2005. We received a copy of your letter on May 17, 2005. Based on the information contained in the RLCR/PDSR, and revisions made, we are hereby concurring with the determination that Tent 15 is a Type 2 Facility, and approving the PDSR, as revised, allowing for the appropriate demolition of Tent 15.

In approving this PDSR we expect the asphalt floor, which is stated to be the secondary containment for the RCRA Unit, will be properly removed immediately after demolition and removal of the tent and equipment, and not allowed to remain without appropriate environmental controls. This and any other issue that may arise during demolition should be discussed and resolved utilizing the consultative process.

If you have any questions regarding this correspondence please contact me at (303) 692-3367, David Kruchek at (303) 692-3328, or Harlen Ainscough at (303) 692-3337.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
